

Postdoctoral Fellow

Metal homeostasis in biological nitrogen fixation

Position Profile:

Postdoctoral researcher with PhD and/or postdoctoral experience in metal homeostasis in plants. Proficiency in English and/or Spanish is required.

Job Description

The successful candidate will work in the group Metal Homeostasis at Plant-Microbe Interactions (www.metalsym.com) at Centro de Biotecnología y Genómica de Plantas (UPM-INIA) (www.cbgp.upm.es) in Madrid, Spain. He/she will undertake a multidisciplinary Project to design metal delivery networks to metalloproteins engineered in crops

Duration:

1 year. Upon positive evaluation, the contract can be renewed on a yearly basis for up to four years.

Salary:

Final salary depending on qualifications and experience based on the Spanish Juan de la Cierva and Cajal Programs.

Start Date:

15.March.2021.

Application deadline:

1December.2020 or until finding a suitable candidate.

Contact:

Interested candidates should send their CV and contact information of two references to Dr. Manuel González Guerrero (manuel.gonzalez@upm.es).

For further information about the activities of the group, please visit www.metalsym.com.
