POSTGRUADO NO DOCTOR

RESEARCH LINE: PLANT ALLERGENS

A contract offer for a Biologist/Biotechnologist/Biochemist or similar is offered, in order to carry out the following tasks:

1. Protocols standardization for biofunctionalization of nanoparticles with antibodies in order to capture allergy biomarkers in human serum.
2. Participation in the validation of a device for *in vitro* diagnosis of food allergy.
3. Participation in studies and development of a business plan and results exploitation within commercial aspects.
4. Participation in dissemination and communication activities.

Experience in the previously mentioned tasks is required. Technical abilities, organizational skills and ease of communication will be highly valued.

Contract amount: from €18.000 €/year.

Duration: 1,5 months. Full time.

The candidate is expected to start working on February 15th, 2022.

People interested must send their CVs to alejandro.romero.sahagun@upm.es before January 29th, 2022.
