## Short training fellowship offer in **Comparative Metagenomics**

### **Where**

Computational Biology department at the Centre for Plant Genomics and Biotechnology (CBGP) in Madrid, Spain

### **About the Institute**

The Centre for Plant Genomics and Biotechnology (CBGP) is a joint (UPM-INIA) research institute of excellence located at the Montegancedo International Campus in Pozuelo de Alarcón, Madrid. Research activities at the CBGP are focused on plant biology and associated microorganisms. CBGP has relevant educational and training roles for Bachelor, Master and PhD students, and technicians, and has contributed to boost the scientific career and leadership of young scientists.

### **Project and main tasks**

The selected candidate will collaborate in the project "*DESARROLLO DE NUEVOS MÉTODOS PARA ESTUDIOS DE METAGENÓMICA COMPARADA* (development of novel methods in comparative metagenomics)" at the UPM. In particular, the selected candidate will participate in tasks related to studying novel microbial gene functions from metagenomics data.

### **Requirements:**

- Bachelor degree in Biotechnology, Computer Science or similar
- Strong computational biology background (i.e. MSc in related topics)
- Basic programming skills (preferably with Python experience) and Linux terminal proficiency
- Currently enrolled in any Spanish university program
- Fluent English

**Duration:** 2 months

**Salary:** according to UPM standards

**Deadline for applications:** Oct 16th, 2022

**Estimated Starting Date:** ~1 Nov 2022

### **Application process:**

Send CV and motivation letter to [j.huerta@csic.es](mailto:j.huerta@csic.es)
