

## Postdoctoral Fellow

### Metal homeostasis in biological nitrogen fixation

#### Position Profile:

Postdoctoral researcher with PhD and/or postdoctoral experience in metal trafficking in plant-microbe interactions. Proficiency in English and/or Spanish is required.

#### Job Description

The successful candidate will work in the group Metal Homeostasis at Plant-Microbe Interactions ([www.metalsym.com](http://www.metalsym.com)) at Centro de Biotecnología y Genómica de Plantas (UPM-INIA) ([www.cbgp.upm.es](http://www.cbgp.upm.es)) in Madrid, Spain. He/she will undertake a multidisciplinary Project to design metal delivery networks to metalloproteins engineered in crops.

#### Duration:

1 year. Upon positive evaluation, the contract can be renewed on a yearly basis for up to four years.

#### Salary:

Final salary depending on qualifications and experience based on the Spanish Juan de la Cierva and Cajal Programs.

#### Start Date:

January 2021.

#### Application deadline:

15.November.2020 or until finding a suitable candidate.

#### Contact:

Interested candidates should send their CV and contact information of two references to Dr. Manuel González Guerrero ([manuel.gonzalez@upm.es](mailto:manuel.gonzalez@upm.es)).
